WORK EXPERIENCES

Department of Education Central

Pasig City, PH

Spes Clerk | Encoding, Database Input May 2024 - Aug 2024

- Processed and encoded 1,000+ official documents into the central database with 99% accuracy
- Streamlined routing document and filling workflows, reducing document retrieval time by **30%** for administrative staff.
- Assisted a team of 10+ personnel under the undersecretary for administration by ensuring timely routing and tracking of incoming/outgoing documents.

Freelance

PH

Freelance | HTML, CSS, JS, PHP, MySQL, Git Nov 2024 - 2025

- *Completed 1+ full capstone system and projects for student clients, delivering end-to-end web applications using PHP, MySQL, HTML, CSS, JavaScript, and Bootstrap.*

PROJECTS

Learning Management System with AI-Generated Reviewer | PHP, HTML, CSS, Bootstrap, JS, MySQL Aug - Nov 2025

- Led the full development and deployment of the LMS for 1,000+ students and teachers, managing system architecture, workflow design, and project timeline.
- Integrated advanced AI features including material summarization, AI chatbot, auto question and flashcard generation, passing rate prediction, analytics, and more.
- Built complete authentication, multi-role access, security, and deployment management (IONOS web hosting).

E-Community Engagement Platform | Next.js, React, Tailwind, Node.js, Express, Supabase, PostgreSQL Oct - Nov 2025

- Built a modern, secure community platform featuring voting/surveys, complaint reporting, messaging, group channels, notifications, and community management tools. Integrated AI assistance, sentiment analysis, and role-based security.

Barangay Ugong Gym Registration System | Python, CSS, C++, Jupyter Notebook, Streamlit Nov 2024

- Designed the entire UI and led a team development effort to build a registration and membership tracking system for barangay gym users. Implemented automated approval workflows, membership ID generation, and centralized user management pages.

Barangay Health System | PHP, HTML, CSS, Bootstrap, JS, MySQL May 2024

- Led a team of 4–6 members in building a complete health record management system with patient profiles, check-up logs, and barangay-level monitoring tools.
- Designed and implemented full front-end and back-end handling of CRUD modules and admin workflows.

CERTIFICATIONS

Udemy Certificates

January 2025 - Present

- The Complete Full-Stack Web Development Bootcamp | Web Development Bootcamp with HTML, CSS, PHP, MySQL, WordPress | PHP with MySQL & Practical SQL: Query & Manage Databases | Git, GitLab, GitHub Fundamentals for Software Developers
- The Complete Networking Fundamentals Course – CCNA
- Figma Essentials for User Interface and User Experience (UI/UX) | Complete MS Office and Web Design Development Course
