General Skills: Microsoft Office Suite, Productivity & Collaboration Tools, Digital Marketing, Graphics
Soft Skills: Leadership, Communication, Project & Time Management, Adaptability & Quick Learning.

WORK EXPERIENCE

- NexVision Innovations Inc.** | *Full-Stack Developer & Intern Project Lead* **Jan 2026 – Apr 2026**
- Served as Project Lead for Beauty Connect, a scalable multi-tenant beauty marketplace serving 1,000+ potential clients, overseeing end-to-end feature delivery, team coordination, and system integration.
 - Led backend architecture of a centralized enterprise platform, designing complex REST APIs, managed database schema, and implemented responsive UI components.
 - Integrated AI, real-time Supabase (PostgreSQL) with Edge Functions, Row-Level Security (RLS), and automated SMS/email notification pipelines.
- Freelance** | *Web Developer* **Nov 2024 – 2026**
- Completed multiple freelance projects including full-system builds and frontend tasks, delivering end-to-end web applications for student and private clients.
 - Built complete capstone systems and developed a custom wedding invitation website for a private clients
- Department of Education – Central Division** | *SPES Clerk* | *Encoding & Database Input* **May 2024 – Aug 2024**
- Processed and encoded 1,000+ official documents into the central database with 99% accuracy, supporting a team of 10+ administrative personnel.
 - Streamlined document routing and filing workflows, reducing document retrieval time by 30%.

PROJECTS

- Learning Management System with AI-Generated Reviewer**
PHP, HTML, CSS, Bootstrap, JavaScript, MySQL
- Led full development and deployment of an LMS for 1,000+ students and teachers, including AI features: summarization, chatbot, auto Q&A/flashcards, predictive analytics, multi-role security, and cloud hosting.
- Beauty Connect – Service Booking & Vendor Management Platform**
React 19, TypeScript, Supabase (PostgreSQL), TailwindCSS 4, GSAP, Framer Motion
- Project Lead; architected a multi-tenant beauty marketplace with CRM/booking engine, automated SMS/email notifications, real-time DB, and high-performance UI.
- BazaarX – Enterprise Multi-Tenant E-Commerce Platform**
React 19, React Native (Expo), TypeScript, Supabase, LLM API, TailwindCSS
- Project Lead; architected a dual-platform marketplace with a LLM assistant, camera-integrated AI visual scanner, and multi-branch POS engine.
- HRMS – Full-Stack Human Resource Management System**
Next.js, TypeScript, React, Node.js, PostgreSQL, Face Recognition API, TailwindCSS
- Contributed to building a complex, HRMS MVP featuring biometric face recognition, real-time attendance monitoring, employee records management, and integrated payroll processing — covering the full HR lifecycle.
- Payroll & Attendance Monitoring System**
Next.js, TypeScript, React, Node.js, PostgreSQL, NFC, TailwindCSS
- Developed a company-grade NFC-based tap-in/out attendance and workforce management system for employee and interns with real-time tracking, leave management, payroll, payslip generation, and reporting dashboards.
